DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20, 21, 23 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Riley et al.

In regard to claim 20, the Riley et al. reference discloses a plurality of “storage containers” (26a-26c) each having a plurality of “storage containers” 32, a “discharge port” (88, 90, 92 and 94) and “emptying means” (see col. 5, lines 37-52), as claimed. Further, the “storage containers” 32 are capable of being filled one at a time.

In regard to claim 21, see column 5, line 65 – column 6, line 6.

In regard to claim 23, see “controller” 180.

In regard to claim 24, a “counter” (not shown) is inherent to the system via the controller/computer, since vials are filled by prescription.

Response to Arguments

Applicant's arguments filed 10/14/04 have been fully considered but they are not persuasive. In response to Applicant's argument that nowhere does Riley et al. teach or suggest the feature that at least one particular group has a plurality of storage containers only one of which is filled at a time, see rejection discussed supra and the

following. A recitation of the intended use (i.e., filling one at a time) of the claimed invention must result in a **structural difference** between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is **capable of performing** the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Allowable Subject Matter

Claims 1-19 and 35-44 are allowed.

Claims 22 and 25-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
